

emhash8::HashSet::HashSet

emhash8::HashSet::shrink
_to_fit

emhash8::HashSet::bucket
_count

```
graph LR; A[emhash8::HashSet::HashSet] --> C[emhash8::HashSet::bucket_count]; B[emhash8::HashSet::shrink_to_fit] --> C;
```

The diagram illustrates a dependency or relationship between two functions and a shared variable. On the left, two white rectangular boxes represent functions: 'emhash8::HashSet::HashSet' (top) and 'emhash8::HashSet::shrink_to_fit' (bottom). On the right, a gray rectangular box represents a shared variable, 'emhash8::HashSet::bucket_count'. Two blue arrows originate from the right side of the function boxes and point towards the left side of the variable box, indicating that both functions interact with or depend on the 'bucket_count' variable.
